

A complete care for **strong** bones...

Caldimint™ CCM

CCM 250mg + Vitamin D3 100 I.U + Folic Acid 50 Mcg

Makes your body
frame Strong
internally with..

- **Calcium Citrate Malate** : is approximately (4-5%) more absorbable than calcium carbonate and is well absorbed regardless of stomach acid.
- Studies have suggested that calcium citrate malate is better absorbed than calcium carbonate.
- Calcium also aids in the development of the baby's heart, muscles, nerves and ensures good blood-clotting ability.
- Fulfils the need of low calcium after delivery & during lactation
- **Vitamin D3** : Controls blood pressure
- Maintain proper levels of calcium and phosphorus, which help build baby's bones and teeth
- **Folic Acid** : As it is biochemically inactive, is converted to Tetrahydrofolic Acid and Methyltetrahydrofolate by Dihydrofolate Reductase (DHFR)
