

DUSTING POWDER

Clotic

Clotrimazole 1% Dusting Powder

- Is a broad-spectrum antimycotic drug mainly used for the treatment of candida albicans and other fungal infections.
- It displays fungistatic antimycotic activity by targeting the biosynthesis of ergosterol.
- Important part of new protocol for oral candidiasis, with improved clinical outcomes.
- Most commonly employed as a topical treatment in the management of vaginal candidiasis.
