

OVACHIP™ PLUS Tablets

Dehydroepiandrosterone 75mg SR (Micronized Form) + Folic Acid 4.5 + Vitamin D3 3000 IU

Stressed out due to *Infertility*

Dehydroepiandrosterone (Micronized) is a hormonal medication. It gets converted into sex hormones in the body which are essential for the production and development of healthy eggs.

Folic Acid is a form of vitamin B. It plays a vital role in the formation of red blood cells, which carry oxygen throughout the body.

Vitamin D3 is a form of vitamin D. It raises vitamin D levels in your blood. This in turn raises calcium levels in your blood by helping you absorb more calcium from food.

Imbalanced hormonal level **Successfully**
