

Ewindiol™

Estradiol Valerate Tablets 2mg

Go Beyond Relief, Naturally !!!

Indications

Ewindiol

This medication is a female hormone (estrogen). It is used by women to help reduce symptoms of menopause (such as hot flashes, vaginal dryness). These symptoms are caused by the body making less estrogen. If you are using this medication to treat symptoms only in and around the vagina, products applied directly inside the vagina should be considered before medications that are taken by mouth, absorbed through the skin, or injected.

When experiencing the symptoms of vaginal atrophy due to menopause.

- Hot Flashes
- Head Ache
- Irritability
- Depressive Mood
- Sleep Disturbances
