

# Permetic

Permethrin 1% Soap Medicated Soap  
For Treatment of Scabies & Head Lice

- A topical scabicial agent.
- Highly safe as it is minimally absorbed via skin (only up to 0.5%).
- In the treatment of scabies permethrin is more effective than gamma- benzene hexachloride & ivermectin.
- Preferred choice for scabies due to its residual effects.

*Powerful Treatment Of Pediculosis Pu*
