

# LUBICEL<sup>TM</sup> PGP Eye Drops

10ml with  
Tray & Catcher

Polythene Glycol 400 & Propylene Glycol 300 Eye Drops

## PG 400 & PPG

- ✓ Prolonged Tear Film Breakup Time (TFBUT)
- ✓ Unique property of gelling and lubricating polymer system which adjusts to each patient's individual tear film pH

## BIPHASIC MECHANISM OF ACTION

- ✓ It binds to the damaged hydrophobic areas of epithelial cells to add volume to the tear film.
- ✓ Restructure the tear film by forming a protective gel matrix there by providing long lasting protection.
