

## A Unique Approach to Stop Heart Attacks

# Ticatime 90

Ticagrelor 90mg Tablets

- Belongs to a group of medicines called anti platelets or blood thinners. It reduces the formation of harmful blood clots in blood vessels.
- Helps to prevent a heart attack or stroke in people with heart disease.
- Used to treat people with a recent heart attack or severe heart-related chest pain (unstable angina), who have undergone stenting of the heart.
