Clopidogrel 75mg Capsules

Cardix Life Care™

INDICATIONS

Myocardial Infarction

Stroke and Angina

High lipid levels

Rheumatoid Arthritis

- 🔹 **ROSUVASTATIN** is a lipid lowering medication that blocks the body's ability to produce bad cholesterol (LDL) and improves the level of good cholesterol (HDL).
- 🔹 **ASPIRIN & CLOPIDOGREL** are antiplatelet medications. They work by preventing the platelets from sticking together and decrease the formation of harmful blood clots.

The Winning Combination
