

CREAM

Rediscover healthy skin

Metakin Cream

Mometasone Cream

- ▶ Potent topical corticosteroid
- ▶ Produces rapid and progressive improvements in dermatoses
- ▶ Mometasone applied once daily is significantly more effective than fluocinolone cream, applied three times daily in psoriasis.
- ▶ Possesses high margin of safety.
- ▶ Safe and effective for long-term, intermittent treatment of chronic hand eczema.

Isolates Ailments from skin

ATOPIC DERMATITIS | SCALP PSORIASIS |
SKIN ALLERGIES | INSECT BITES AND STINGS
