

In Critical Situations...

Elevated ICP (Intracranial pressure) is one of the most important clinical issues in NEUROSURGERY and NEUROLOGY

EMPOWERED BY DUAL ACTION

ManiritTM G Infusion

Mannitol with Glycerin Injection

- Mannitol with Glycerin Injection is a osmotic diuretic agent & weak renal vasodilator
- It is reduced form of fructose and is produced by a variety of micro Organisms
- It exceeds the reabsorption capacity of the tubule & the excess appears in the urine accompanied by an increased volume of water
- Effective in reversing acute brain swelling

In.

CEREBRAL OEDEMA & INFRACTION

INTRACEREBRAL HEMORRHAGE

BRAIN TUMOR

ENCEPHALITIS

MENINGITIS
