MecovixrTM LC

L-Carnitine L-Tartrate 500mg + Methylcobalamin I.P. 1500mcg +
Folic Acid I.P. 1.5mg Tablets

L Carnitine L Tartrate

•L Carnitine L Tartrate used to prevent and treat low blood levels of carnitine. Carnitine is a substance made in the body from meat and dairy products. It helps the body use certain chemicals (long-chain fatty acids) for energy and to keep you in good health.

Methylcobalamin:

•Methylcobalamin is used to treat vitamin B12 deficiency. Vitamin B12 is important for the brain and nerves, and for the production of red blood cells. Methylcobalamin is sometimes used in people with pernicious anemia, diabetes, and other conditions.

Folic Acid:

•Folate helps the body make healthy red blood cells and is found in certain foods. Folic acid is used to treat or prevent folate deficiency anaemia, help your unborn baby's brain, skull and spinal cord develop properly to avoid development problems (called neural tube defects) such as spina bifida.
