# Cinavax D

Cinnarizine I.P. 20mg + Domperidone I.P. 15mg

## Cinnarizine

- Reduces nystagmus & other vestibular disorders, reduces the labyrinth irritability.
- Improves the brain and peripheral microcirculation, antagonizing vascular effects of the endogenous monoamines and oligopeptides.

## Domperidone

- A dopamine-receptor blocker, thus controls nausea, Vomiting & Gastro-oesophageal reflux

**Patients with Labyrinthitis**

**Vestibular Disorders**

**Meniere's Disease**

**Motion Sickness**

**Cinavax D**

**Provides quick relief from vertigo & associated symptoms**
