Better Motility*

Ribvax LSR

Rabeprazole Sodium (E.C) I.P. 20mg + Levosulpride (S.R) 75mg Capsules

- ✓ Superior acid reflux control by anti-emetic and prokinetic effects.
- ✓ Excellent dissolution of Rabeprazole and Levosulpride in intestine stomach respectively.
- ✓ Decreases frequency and intensity of individual symptoms like pain / discomfort, fullness, bloating, early satiety, pyrosis, regurgitation and nausea and vomiting.
- ✓ Significant reduction in gastric emptying time by 96 minutes.
- ✓ All symptoms almost disappear by the 30'th day
- ✓ Better overall clinical improvement than domperidone
