**Allergic Conditions**

# Leebolik™ M TABLETS

Levocetirizine Hydrochloride I.P. 5mg + Montelukast Sodium I.P. 10mg

## LEVOCETIRIZINE

- ➔ Block the action of histamine, that causes allergic symptoms
- ➔ Exhibits 2-fold higher activity than that of cetirizine

## MONTELUKAST

- ➔ Reduces the bronchoconstriction, hence results in less inflammation
- ➔ Prevents bronchospasm during exercise

- ◆ Recurrent Allergic Rhinitis
- ◆ Seasonal Allergic Rhinitis
- ◆ Perennial Allergic Rhinitis
- ◆ Common Cold
