

Release from suffering pain & fever...

Ibuvamp Plus

Ibuprofen I.P. 100mg + Paracetamol I.P. 125mg

SUSPENSION

- Paracetamol and Ibuprofen both of which are widely used as pain killers.
- Ibuvamp Plus Oral Suspension is used to reduce pain as well as fever in children and infants.
- This medicine is very effective in treating mild to moderate pain associated with migraine, headache & backache.
- The anti-inflammatory component makes this medicine more effective in treating strains, sprains and muscle pains.
