# Oxyvil P

Oxymetazoline HCL I.P. 0.025% w/v + Benzalkonium Chloride Solution I.P. 0.02% v/v Nasal Drop

Common cold

Hay Fever

Snoring

Nasal Congestion

### Xylometazoline HCL

- It is an imidazoline derivative that helps in providing relief from nasal congestion due to acute or chronic rhinitis, sinusitis, common cold, allergies and hay fever.
- Also, Xylometazoline HCL help in fast and instant relief from congestion. Moreover, it helps in better breathing. In addition, it stimulates alpha-adrenergic and narrows the blood vessels. This leads to lowering the blood flow in the nose.

### Benzalkonium Chloride Solution

- It is a well-known nasal decongestant that helps in reducing the mucosal temperature in the nasal.
