- Cissus quadrangularis**
It is for joint and bone health as well as various feminine disorders and menopause
- Calcitriol**
is used in patients with kidney disease who can't make enough of the active form of Vitamin D.
- Calcium Carbonate**
Calcium is needed by the body for healthy bones, muscles, nervous system, and heart. It is also used as an antacid to relieve heartburn, acid indigestion and upset stomach.
- Magnesium**
Magnesium plays many crucial roles in the body, such as supporting muscle and nerve function as well as energy production
- Zinc**
Zinc, a nutrient helps your immune system and metabolism function.
- Mecobalamin**
It is a form of vitamin B12 that restores its level in the body thereby helping in treating certain anemia and nerve problems.
