Pain & Inflammation

Decovil™ TC

Tablets

Trypsin-Chymotrypsin 50000 Armour Units
+ Diclofenac 50mg + Paracetamol I.P. 325mg

- ✓ Widely used in practical medicine to treat kinds of inflammations, such as dropsy, abscess, ulcer, thrombus and others.
- ✓ Restores microcirculation and blood supply to affected area.
- ✓ Enhances penetration of co-prescribed medication by thinning body fluids around site of injury.
- ✓ Decreases the need for rescue analgesia & higher dosage due to synergism.
- ✓ Offers NSAID with anti rheumatic, anti-inflammatory, analgesic and antipyretic properties.
