Vilmox™ KT	Moxifloxacin HCL I.P. 0.5% w/v + Ketorolac Tromethsmine I.P. 5% w/v	EYE DROP

- 
Moxifloxacin:
 - Eradicates ocular pathogenic bacteria by bactericidal action.
 - Offers greater efficacy against resistant bacteria than conventional antibiotics.
- 
Dexamethasone:
 - Synthetic topical corticosteroid.
 - Inhibits synthesis of inflammatory mediators–Prostaglandins.
 - Relieves the symptoms of inflammation: redness, soreness & swelling
- 
Benzalkonium Chloride
 - Improves ear pressure in otitis media
- 
Ketorolac
 - Relieve eye swelling and pain after cataract surgery
 - Blocks the hormones that produces inflammation and pain

Indications:

Conjunctivitis

Blepharitis

Bacterial Keratitis

Corneal Ulcers
