

RE-HYDRATE YOUR BODY...

# Fibovil<sup>®</sup> ORS

Sodium Chloride I.P. 2.6g + Potassium Chloride I.P. 1.5g +  
Sodium Citrate I.P. 2.9g + Dextrose (Anhydrous) I.P. 13.5g Sachet

- ✓ Oral rehydration Salt is a type of fluid replacement used to prevent and treat dehydration, especially due to diarrhea.
- ✓ The primary therapeutic role of ORS solutions is in prevention and treatment of dehydration during management of acute gastroenteritis.
- ✓ Since the inception of the oral rehydration approach more than three decades ago, the widespread use of ORS solutions has revolutionized the management and outcomes of acute gastroenteritis in children and adults.
- ✓ This is used to replace fluids and minerals (such as sodium, potassium) lost due to diarrhea and vomiting.
