

The Powerful Mucolytic With
Versatile Activity

Mucoglad[®]

Mucoglad[®] 600

N-Acetylcysteine 600mg

EFFERVESCENT TABLETS

Mucoglad[®] A

N-Acetylcysteine 600mg + Acebrophylline 100mg

TABLETS

N-Acetylcysteine

- ⇒ Facilitates removal of mucus by the mucociliary action & expectoration.
- ⇒ Produces a mucolytic activity to lower the viscosity of mucous.
- ⇒ Microbiological use reduces thickness of mucus layer & increases permeability of antibiotics in respiratory and gastro intestinal infections.

Acebrophylline

- ⇒ Reduces viscosity of mucus & improve ciliary clearance.
- ⇒ Prevents exacerbations.
- ⇒ Reduces need for beta 2-agonist & Improves indexes of ventilator functions.

Indications

Cystic Fibrosis

Bronchiectasis

Bronchial Asthma

Acute Respiratory Infections
