

Enrich Life with true Calcium Supplement

CALOVIL[®] CCM

Calcium Citrate Malate 250mg +
Cholecalciferol (Vitamin D3) 100 IU + Folic Acid 50mcg

TABLET

Calcium Citrate Malate

Water soluble calcium supplement.
Calcium salt of citric acid and malic acid.
It is supposed to have high bio-availability.

Cholecalciferol

It is one of the five form of Vitamin D & steroid molecule with one open ring & also called as secosteroid. It is inactive & converted to active form by two hydroxylations by liver & kidney.

Folic Acid

It is Vitamin B. It is often used in food industry.
The term folate refers to the deprotonated ion and folic acid to the neutral molecule, which both co-exist in water.
