

Rise Out of Falling Situation

Moxirit IV

Moxifloxacin 400mg

INFUSION

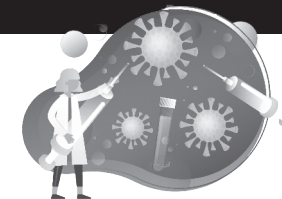

- Broad spectrum antibiotic with activity against gram (+)ve & gram (-)ve organisms.
- An effective treatment alternative for Community Acquired Pneumonia due to both typical and atypical bacterial pathogens.
- Moxifloxacin was greater than that of ofloxacin against Enterobacteriaceae.
- **Moxifloxacin is more potent than ciprofloxacin and ofloxacin Gram (+)ve pathogens, may be comparable in activity against less quinolone-susceptible.**

In. CHRONIC BRONCHITIS

SKIN & SOFT TISSUE
