

When Severe *Acidity* Need Urgent *Control*.....

Esopime 40

Esomeprazole 40 Injection

INJECTION

Esomeprazole:

- Heals 92%-94% of patients of erosive esophagitis.
- **Suppresses gastric acidity more effectively and in more individuals than pantoprazole, 40mg daily, and rabeprazole 20mg daily.**
- Ensures superior healing rates and improved symptom relief, with fewer therapy resistant patients

*Sure & Effective
Anti-ulcer Therapy*

In.
