

Lower the Hypertension
before **Danger Bell Rings**

Telbovil™ Trio

Telmisartan IP 40mg + Chlorthalidone 12.5 + Cilnidipine 10mg Tablets

- 💧 **Telmisartan :**
Confers cardiovascular protective effects with better tolerability than ramipril.
- 💧 **Chlorthalidone :**
More sustained antihypertensive effect than hydrochlorothiazide
- 💧 **Cilnidipine:** Shows efficacy in reducing blood pressure in hypertensive individuals but is associated with lower incidence of pedal edema compared Amlodipine
