NimogladTM

Nimodipine Infusion 10mg BP Injection

Nimodipine is indicated for the improvement of neurological outcome by reducing the incidence and severity of ischemic deficits in patients with subarachnoid hemorrhage from ruptured intra cranial berry aneurysm regardless of their post-ictus neurological condition (i.e. Hunt and Hess Grades I-V).

Nimodipine treats the bleeding in the space surrounding the brain that occurs when a weakened blood vessel in the brain bursts

Reduce the risk of Stroke with...
